

AMENDMENTS

IN THE CLAIMS:

1.(Twice Amended) A side curtain airbag cushion designed to protect vehicle occupants during a rollover collision, said cushion comprising a fabric, wherein said fabric is coated with an elastomeric composition in an amount of at least 0.8 and at most 2.5 ounces per square yard of the fabric; and wherein said airbag cushion exhibits a characteristic leak-down time after inflation of at least 5 seconds.

15.(Twice Amended) A side curtain airbag cushion designed to protect vehicle occupants during a rollover collision, said cushion comprising a fabric, wherein said fabric is coated with an elastomeric composition in an amount of from at least 0.8 to at most 2.5 ounces per square yard of said fabric; wherein said elastomeric composition comprises at least one elastomer possessing a tensile strength of at least 2,000 psi and an elongation of at least 180%; and wherein said airbag cushion exhibits a leak-down time after inflation of at least 7 seconds.

30.(Twice Amended) A coated side curtain airbag designed to protect vehicle occupants during a rollover collision, said cushion comprising from 0.8 to about 2.5 ounces per square yard of a coating applied to the surface of said airbag, wherein said airbag exhibits a rolled packing volume factor of from about 17 to about 24; and wherein said coated side curtain airbag exhibits a leak-down time after inflation of at least 7 seconds.
